RIOT AMONGST IRISH LABORERS - RELIGIOUS DIFFER-ENCES THE CAUSE. Yesterday morning, about one o'clock, a desperate firsy took place in Jackson square, at the junction of Eighth and Greenwich avenues, between a large num-ber of Irish laborers and others living in the tenement houses of that locality. It appears that about three weeks ago some Catholics and Protestants went on an excursion to Biddle's Grove, and there had a serious difficulty, growing out of religious differences of the excursionists. Without shedding blood, however, the parties returned to the city, only to renew the trouble which had its origin abroad. In this last affair it is almost impossible to ascertain who were the aggressors, as the fight was a general one and lasted but a few minutes. During the riot knives and other deadly weapons were used with telling effect. One George Beatty was stabbed twice in the head, once in the neck, and four times in the breast and abdomen. The wound in the abdomen is of a dangerous character. Owen Clark, another of the rioters, received three stabs in the head and face. James Kennedy and others were more or less cut and bruised. At the time of the breaking out of the riot officer Knight, of the Ninth precinct, who was on duty in the immediate neighborhood, after giving the alarm, hastened to the apot, and, single handed, vainly endeavored to quell the riot. His call for help was quickly responded to by Sergeant Lush and officer McPherson, likewise a number of officers from the Sixteenth precinct seewise a number of officers from the Sixteenth precinct seewise a number of officers from the Sixteenth precinct seewise a number of officers from the Sixteenth precinct seewise a number of officers from the Sixteenth precinct seewise a number of officers from the Sixteenth precinct seeming the stable of the protest of the prote ago some Catholics and Protestants went on an excursion wise a number of officers from the Sixteenth precinctisson arrived, and by their united efforts finally dispersed the rioters, who were as bloody a long set of men as any one might wish to see. The officers succeeded in arresting ten of the rioters, who gave their names as George Beatty, Wm. Hackett, Wm. McMann, Owen Clark, Patrick Clark, Wm. Archibald, John Roach, Wm. MoGeohn, James McCarly, and James Konnedy, all of whom were taken to the Ninth ward station house, when such as needed medical diverse attended by Dr. Ross, of Hudson street. Beatty was afterwards conveyed to his residence, where he lies in a critical condition. Inspector Sebring subsequently made vigilant efforts to find some complaining parties, but not even a single individual could be found who expressed a willingness to come forward and prefer complaints against the rioters. The prisoners, however, are still in custody, awaiting an examination before Justice Quackenbash.

AN Ex-POLICEMAN CHARGED WITH PICKING POCKETS. Eadie, an ex-policeman, formerly attached to the Broadway squad, and some time since dismissed from the force for intoxication, was arrested on Monday night by officer Delahunt, of the Nineteenth precinct, charged with picking the pocket of Ferdinand Folien, living at 96 Cannon street, of a silver watch, valued at 835. The members of a German Catholic church were celebrating a festival in Hamilton park, hear Saty-sixth street and Third avenue, which drew a large concourse of people. While there Mr. Folien had his pocket picked, and charged the theft upon Eadie and two others. On scarching Eadie the stolen watch was found in the lining of his coat. He was kept in the station house all night, and subsequently taken before Justice Brownell for examination. The accused dept station the purpose of involving him in trouble.

Their demand was refused. The rowdies then commenced an assault upon Mr. Bailen, who, it is alleged, was stabbed in the back with a knife or other sharp instrument in the hands of McMenony. The alarm being raised, officer Lawnoy, of the Seventeenth precinct, ran up and arrested McMenony. His confederates escaped. The prisoner was detained to answer.

DEATE OF MR. GEORGE GRISWOLD, MERCHANT. It becomes our painful duty to announce the death of Mr. George Griswold, at New Brighton, Staten Island, on Monday evening last. This event took place in the eighty-third year of his age, after a brief illness. Mr. Griswold was one of the oldest merchants, if not the oldest, in the city. He began business in 1794, and by his enterprise contributed to the with-drawal of the East India trade from Boston to New York. Mr. Griswold's business qualities were remarkable, and it Mr. Griswold's business qualities were remarkable, and it was to his endeavors, in a great part, that the firm of N. L & G. Hamburg steamship line, and that her withdrawal in no way affects the regular communication between New York and Hamburg on the 1st and 18th of each month.

Besides the four steamers Saxonia, Bornesia, Hammonia and Bavaria, which perform the regular service, the Hamburg line possesses one first class extra boat, the Teutonia, to take the place of any of the other boats when their turn comes for the annual examination in dock, or to accomdate any extra amount of freight offering during the more active periods of trade—thus making great regularity and full accommodation. Since the line has been started, four years ago, not a single day of departure from Hamburg has been changed or missed.

Up to this year the Hamburg boats snade no voyages during the winter months. To meet the strongly expressed wishessof the importers of German goods, trips will be made this year from Hamburg on the 1st of January and on the 1st of February, so as further to increase the efficiency and usefulness of the line.

FINANCIAL AND COMMERCIAL.

The stock market continues extremely active, and prices continue to advance. The amount of business done this morning was considerable larger than usual. Yesterday's ing courage to buyers of stocks. Of course the unfortu nate operators who sold Michigan guaranteed at 22 a 23 on the strength of the strike, and bought it in yesterday at 27 a 28 for delivery, are mightily disgusted, and vent their spleen in some instances with more fervor than justice of good taste. These speculators have so long ruled Wall street, and knocked about property as they pleased, that they seem quite outraged when a man presumes to pro-tect his interest and to buy a few hundred shares for ash. The lesson they received yesterday will not proba-oly be the last of its kind; before this fall ends it is likely that a few more of them will have to disgerge their gains of the spring and summor. Guaranteed sold as low, at the open-ing to-day, as 24; these prices brought in new orders, and the price rose to 2514; it closed in the afternoon at 24 14 bid. Central was in active demand, for Albany account, apparently; the price advanced 2 per cent. The distinguished foreign house which lately parted with its stock at 76 had better, it seems, have waited a day or two. Rock Island was freely sold at 70; this road will probably pay a dividend in November. Hudson Eiver was higher. As this road increased its earnings while all the other roads were falling off, it is expected that its increase, now that increased carnings are the rule, will be very large. In of the small floating debt, which will enable a dividend to be paid next year. Bonds and State stocks are all better. There is a good country demand for the latter. Michigan Southern bonds are sold daily at very low prices by parties who purchase a bond or two and sell to a confederate, in order, by making a low quotation, to affect capacity to carn its interest (its whole bonded debt is only about \$9,300,000) the trick enables parties to purchase bonds at a cheap rate. In the afternoon the market was a fraction lower, and stocks closed weak at the following quotations :- Misscuris, 84% a 85; Canton, 17% a 1834; Cumberland Coal, 14% a 15; Pacific Mail, 84% a 85; New York Central, 77% a 78; Eric, 4 a 1/4; Hudson River, 36 a 1/4; Harlem, 10 a 1/4; Reading, 44 a 1/4; Michigan Central, 46% a 47; Michigan Southern, 7 a 14; do. guaranteed, 2434 a 14; Panoma, 11714 a 118; Illinois Central, 6714 a 68;

Galena and Chicago, 73 a 14; Cleveland and Toledo, 2814 a 34; Chicago and Rock Island, 69 a 34. Money continues very easy. We quote call loans 5 a 6 per cent, with most transactions at 5 ½ a 6. The best short paper goes at 61/2 a 7; long paper, first class, two names, 7; second class, 8 a 10. Exchange is dull, but the price does not vary. We quote sterling sixty day bills at 110%, but many excellent bills are sold at 110. Francs sell at 5.13%. The steamer from Boston to-morrow will take no specie from hence; a sum of about \$1,200,000 will go in the Cunard steamer Ema, which sails direct from this port, and there will probably be a heavy shipment on

Saturday.

The following was the business of the Sub-Treasury to-day:—
Total receipts. \$201,534 00
For customs. 59,000 00
Total payments. 230,441 62
Balance. 4,819,905 79

Bark Hesper-Pilot boat Mary Ann reports:—Sept 5, fell in with bark Hesper, of Newburyport, 90 miles East of Sandy Hook, in a disabled condition. When off Cape Hatteras Aug 21, in a severe hurricane, lay on her beam ends five hours; carried away fore topgallantmast, mizen topmast, and had to cut the mainmast away from the deck to right the ship. The II was from Cardenas bound to London, but owing to the disabled

condition would come to this port. She was signalled yester-day by the steaming Huntress and taken in tow.

LAUNCHED—The steamboat Alabama, the first iron vessel ever built at Greenpoint, was launched from the yard of Saml Sneeden, *. Greenpoint, resterday afternoon, at 4½ o'clock, She ghaded into the water easily and without accident. She was then taken to the Morgan Iron Works to receive her machinery.

SHIP FANNY S PERIET, York, hence Dec 5, had not arrived at San Francisco to Aug 20. A despatch from there of the 20th via New Orleans, states that her consigness consider her as leat.

The reported disaster to the bark Eleanor, hence for Aspin-wall, is incorrect, although the correspondent of the Board of Underwriters so reported. It should have read bark Alnah. Sens Jurice Wass, Edwards, arrived yesterday 5th, 3 days from Boston for Sandy Hook fortifications, while passing through Hell Gate, in charge of a pilot, touched on Middle Channel Reef, and subsequently went off without damage to vessel or cargo, and proceeded to her destination. (It was stated yesterday that the J W had bilged.) stated yesterday that the J W had bilged.)
SCHE RETURN—Mr Lowell, keeper of Seguin Light, picked up at that island Friday morning, a yaw! boat, oars, two chests with clothing, papers, &c, which had drifted ashore. The papers showed that they belonged to schr Return, Capt Elisha Brown, and the enrollment was dated Portland, Aug. 8, 1859. Mr Lowell supposes the schr must have been run down the previous night.

THE DRIGGS PATENT PIANOFORTES.

"THE BEST PIANO EXISTING."

It is the only piano the construction of which is truly selentific, the principles on which it is made being precisely those of the violin.

The iron bed plate, which sustains all the strain, is entirely free from the case or vibratory part of the instrument, the two sounding boards forming a complete sound chamber as in the violin. violin.

They have greater strength and will remain longer in tone
than any other plane, and, like the violin, they continue to im-

than any other plane, and, like the violin, they continue to im-prove with age and use.

The sustaining power, and purity and evenness of tone are unequalled.

Sole agents,

WM. HALL & SON, 543 Broadway. unequalled.

Sole agents, From S. Thaiberg.

"The tone is grand and noble. It has great capacity for sustaining the sound or singing, and its volume of tone or power I have never heard excelled in depth, purity and sympathetic sweetness."

From I. M. Gottschalk, Max Maretzek and others.

The tone (of the squares) equals the best grand planofortes, and excels them if pure musical intonation and actual tone-power."

"The tone (of the squares) equals the best grand planofortes, and excels them if pure musical intonation and actual tone-power."

CAUTION TO THE PUBLIC.

Some two or three manufacturers of planofortes, who have gained an ephemeral reputation during the last year or two, inding that the Driggs patent planos, as now made by Driggs, Parmelee & Co. for us, are fast superseding the old styles of unscientifically-constructed instruments, have obtained some of the first ever made under this patent as experiments, and are exhibiting them to their edstomers and to the public generally as samples of the Driggs plano.

The whole-plan of constructing this plano was so different from that pursued for the last fifty-ears, that he ignorance and want of appreciation of its fifty-ears, that he ignorance first intrusted with its major that exceed the construction, led exceeding the property of the second of the last fifty-ears, that he ignorance first intrusted with its major that the successful development of the second of the last statements which have been developed. In addition to his clemitic statements, we have now brought into the business the practical experience of these instruments equal in mechanical skill to any in the world; and this greatest and most important musical invention of the age is now fully developed.

To compare the first steamboat of Robert Fulton to one of the immense fonting planees which now navigate the Hudson, would be about as fair and honest a comparison as the one attempted by our cotemporaries.

All who are interested in musical or scientific matters are respectfully invited to call in our warerooms, No. 545 Broadway, one that a proper supplication of the St. Nicholas, and examine the Driggs Patent Flanos as now perfected.
